Event Recording
(Frequency / Behaviour Count) Form

Practitioner:	**Provider/ Room:**
Date(s):	**Child's name:**

Procedures:
* Write down the behaviour that you will be looking for and its definition
* Every time that you are observe the behaviour:
- Write down the date
- Write down the time
- Make a tally mark every time that the behaviour occurs (if the behaviour does not occur, make sure to enter zero

*At the end of your observation period, total the number of tally marks for that day

Behaviour Definition (in specific, observable, measurable terms)**:**

Date	**Time**	**Tally when the behaviour occurs**	**Total occurrences**
