### ***LAUNDRY***

Continuing care patients may have all their personal laundry processed by the Hospital laundry. Please ensure that all garments are of a machine washable fabric.

As part of infection control procedures, garments are often washed at high temperatures. It is regretted that

the Hospital cannot take responsibility for garments damaged during the laundry process.

General patients are expected, if possible, to arrange for their personal washing to be washed by relatives or friends. Please tell nursing staff if this is a problem.
