

At the Princess Elizabeth Hospital, our operating suite of four theatres is designed to carry out a wide range of procedures across all specialities, with exception to Neuro, Cardiac and major Paediatrics.

Our team consists of RGN's, ODP's and TPA's, working alongside a highly skilled consultant team in all areas of surgery, anaesthetics, recovery or scrub.

Crucially, as we are required to deal with any procedure that patients may require in an emergency, we ensure that our multi-skilled, cross-trained team are offered degree or diploma level training for personal and professional development as well as a solid in-house competency development framework.

Through our fast-track staff development programme there are opportunities for staff to progress quickly to Band 6 level.

“ I returned to Guernsey to achieve a better work-life balance. The island is beautiful, I love that I'm able to be on the beach in 10 minutes once I finish work. As there is only one hospital, the work is varied and interesting. ”

Sue Holdway - Theatre Practitioner

If you want to work in a practice area, while enjoying a healthy work-life balance, then we may just have the opportunity for you:

- + Scrub**
- + Recovery**
