

We provide an exciting and challenging opportunity within Critical Care Nursing. As a relatively isolated Intensive Care & High Dependency Unit, we provide a comprehensive service to a wide and varied case mix.

As a Consultant led service there are opportunities for suitably experienced nurses to fully utilise their knowledge and skills. We have demonstrated year-on-year impressive outcomes comparable to much larger specialist centres.

We would like to appoint nurses who are passionate about what they do and are keen to develop their careers to utilise knowledge and best practice principles to care for our critically ill patients. Through our fast-tracking programme there are opportunities for staff to progress quickly to Band 6 level, supported by our staff development programme.

We are committed to revalidation and to support this work we provide payment for the cost of NMC Registration and professional subs.

We offer a full relocation package which includes interview and relocation travel, this is in addition to our competitive pay, annual bonus and our additional bonus scheme of £3,000, payable after two and four years. Furthermore, we offer either subsidised accommodation or an 8-year housing permit to rent or buy property privately with financial assistance.

Terms and conditions apply to all bonuses, relocation payment and accommodation and housing permits.

If you want to work in a practice area, while enjoying a healthy work-life balance, then we may just have the opportunity for you:

+ Staff Nurse

+ Senior Staff Nurse

“ The critical care unit is a very supportive unit with great educational opportunities and a great team of people. I have been made to feel very welcome in my new role and enjoying settling in to both the unit and island life. ”

Katherine Rolland - Critical Care Staff Nurse
