REQUEST UNDER THE CODE OF PRACTICE FOR ACCESS TO PUBLIC INFORMATION

Request sent on February 28th 2015:

Under Code of Practice on Access to Public Information, I'd be grateful for a copy of the current Buses GG vehicle working info. This is often produced as "bus boards" documents giving the vehicle running number, list of services worked on each day (usually Monday to Friday, Saturday, Sunday & non-school days, duty & trip numbers. This information can also be provided as a working timetable giving the same info in the style of a matrix timetable or a car graph. I would prefer this information in electronic format.
