

**Frossard Ward is named after Sir Charles Frossard, who was Guernsey's Bailiff from 1982-1992.**

All children and young people from birth to 18 years old requiring acute inpatient admissions are admitted to Frossard Ward. It is the only designated acute and assessment ward for children on the Island and has the capability to meet all the requirements of sick and injured children. We practice family centred care and work in partnership with both the parents/families and other members of the multi-disciplinary team.

Frossard Ward is a forward thinking, progressive and innovative ward, which practices evidence based care in a relaxed and caring environment. The Ward consists of a 4 bedded bay area, 4 en-suite side rooms and a designated 1 bedded adolescent unit with en-suite facilities and separate sitting/activities room.

We are a friendly and dynamic nursing team, who work well together and welcome new staff to our department.

**Other service areas where children may be cared for & paediatric nurse input may be required include:-**

- + A&E**
- + Community**
- + Dental services**
- + ICU**
- + Day patient Unit**
- + CAMHS**

# Working in PAEDIATRICS

If you would like to be a valued member of a truly integrated Health and Social Care Service and have a great work-life balance then we offer excellent career opportunities for Paediatric Staff.

**Frossard Ward is named after Sir Charles Frossard, who was Guernsey's Bailiff from 1982-1992.**

All children and young people from birth to 18 years old requiring acute inpatient admissions are admitted to Frossard Ward. It is the only designated acute and assessment ward for children on the Island and has the capability to meet all the requirements of sick and injured children. We practice family centred care and work in partnership with both the parents/families and other members of the multi-disciplinary team.

Our Neonatal unit consists of 3 cots, including an intensive care cot, High dependency cot & special care facility. We also stabilise neonates prior to transfer off-island if required.

All the **neonatal** staff hold the neonatal intensive care course & are very dynamic, forward thinking staff

We are currently part of an exciting transformation programme to improve the quality of care given to babies, children & their families in Guernsey.

We welcome new ideas & embrace change.

“ Working on Frossard Ward & NNU is a pleasure. Nurses have time to care & provide excellent family centred care to every child. ”

*Julieanne Wilkes, Paediatric Matron*
