

Information for schools and professionals

All schools have a named school nurse link who can be contacted for advice and support. The links below and on the right of this page contain useful information and downloadable resources that can support families, professionals and schools.

If you are a professional and would like support from the School Nursing service please complete the Request for support form

All requests for support must be discussed with the child, young person and parent/carer in advance to gain consent. Once we receive your form it will be reviewed by a member of the team and you will be contacted.

Our website

Our webpages provide health information and links to websites that we feel may be helpful to parents of school age children and young people. *Many schools and GPs have told us that they have found it useful to put a link on their public website to our website. This helps young people and families find the information that they need as soon as possible.*
