

## Access to Public Information Response

August 9<sup>th</sup> 2017

### REQUEST UNDER THE CODE OF PRACTICE FOR ACCESS TO PUBLIC INFORMATION

Request sent on August 9<sup>th</sup> 2017:

I would like to request information under the Code of Practice for Access to Information.

I wondered if you'd be able to provide me with a breakdown of the cost of reports from external companies, consultants etc. over the last three years. Broken down by year if possible.

So companies like Deloitte, KPMG etc. on things like the benchmarking exercise, the housing report etc.

States of Guernsey response sent on August 14<sup>th</sup> 2017:

Just to confirm our discussion last week, where you and I agreed that we'd seek to provide you with the cost of all reports commissioned since the machinery of government changed in May 2016, rather than the below request which I suggested would be voluminous in nature.

I'll revert once I have the information you're seeking.

States of Guernsey response sent on August 18<sup>th</sup> 2017:

Further to your request under the Code of Practice for Access to Public Information, please see below for a list of all reports commissioned (as per the latest update to our commissioned reports list) and how much each cost.
