Table 2. Performance against other indicators

Total number of valid applications received in report period.	<b>1218</b>
Total number of applications decided in report period.	<b>1222</b>
Refusal rate (refusals as % of total applications decided in report period)	<b>1.8% (22 refusals)</b>
Appeal rate (no. appeals received as % of applications refused in report period)	<b>.05 % (1 appeal)</b>
Appeal result (% planning appeals dismissed in report period)	<b>83.3% ( 5 dismissed)</b>

### Notes:-

1. The figures above relate to planning applications and appeals made under the Land Planning and Development (Guernsey) Law, 2005 ('The 2005 Law').
2. Speed of decision is measured in terms of the period between receipt of the valid application and the actual issue (i.e. posting out) of the formal decision notice (not the time between receipt of the application and the making of the decision, which will be slightly shorter).
3. Speed of decision on 'householder' applications. These are generally more minor applications for domestic development.
4. The "Appeal rate" includes appeals received within the period and pending the decision of the Planning Panel. The "Appeal result" statistic measures the proportion of dismissed appeals relative to all appeal decisions on planning applications (including any appeals conceded) over the report period. Dismissed appeals are those decided in favour of the Authority.
5. Performance statistics including the 4th quarter of the year 2017/2018 will be available in April 2018.
