

RECYCLING & WASTE DISPOSAL ROUTES FOR BUSINESSES

IMPORTANT:

Waste and recycling delivered to States of Guernsey Waste sites (i.e. the Waste Transfer Station, the Longue Hougue Land Reclamation site or Mont Cuet landfill site) must be source-segregated and loads being delivered must only contain items accepted at these sites, otherwise a contamination charge may be incurred. For more information on gate fees and detailed conditions of acceptance at States of Guernsey Waste sites please refer to the 'Charging Guidance and Conditions of Acceptance' download available at www.gov.gg/commercialwaste

For site opening times, please refer to www.gov.gg/wasteopeningtimes

For other privately-operated sites (i.e. those not listed above) we recommend making contact with the company listed below first for gate fees, conditions of acceptance and opening times.

Any business transporting waste or recycling must obtain a Waste Carriers Licence, or an exemption, from the Office of Environmental Health and Pollution Regulation.

Businesses creating waste equivalent to that of a household in terms of composition and quantity (i.e. black bags, food waste and recycling which can be placed in blue/clear kerbside recycling bags) may be eligible to opt in to the household kerbside collection scheme and are encouraged to contact their Parish Douzaine. Businesses who are not eligible for this scheme or do not wish to deliver it themselves as per the list below must contract with a licenced commercial waste collection company (see Yellow Pages in the phone book).

Businesses are not permitted to use the Longue Hougue Household Waste & Recycling Centre, or the public bring banks.

Item	Description	Recommended route
Asbestos	Bonded or fibrous asbestos	Mont Cuet landfill site <i>(delivery time restrictions apply)</i>
	"Household" type ¹ and lead acid batteries	Wastenot
Batteries	Lead acid batteries only	Guernsey Recycling
		Scrap-it A. Sparkes Metal Recycling
