Date of response: 16th May 2019

Teacher relocation fees

Request:

In the API request received in the email dated 17th April 2019, request was made for the following information:

- How many teachers were recruited by the States of Guernsey from outside of Guernsey in 2018?
- How many of the teachers recruited from outside of Guernsey in 2018 received any sort of relocation costs? (Whether accommodation, incentives, or any other kind of transitional payment or refund)
- What was the total amount of money paid in relocation costs to teachers employed from outside of Guernsey in 2018? (Whether accommodation, incentives, or any other kind of transitional payment or refund)

Response:

During 2018 we recruited a total of 117 teachers and 45 of those were recruited from outside of Guernsey. Across the 45 teachers that were recruited, a total cost of £129,000 was attributed to relocation during 2018. Due to the way in which this data is recorded, there may be an element of travel costs for interviews included within this figure.
