

GUERNSEY RETAIL PRICES INDEX

4.6% annual change as at 31 March 2005

At the end of March, Guernsey's annual rate of inflation, as measured by changes in the Index of Retail Prices, was 4.6% compared with 4.9% at the end of the previous quarter.

RPI X, the rate of inflation that excludes mortgage interest payments stands at 3.2%

Table 1

The Index Figures at the end of March 2005 were:
 122.8 (Dec 99=100)
 145.8 (Mar 1994 =100)
 197.0 (Dec 1988 =100)
 263.3 (Dec 1983 =100)
 418.0 (Dec 1978 =100)

Period	%	Period	%
3 Months	1.9	2 Years	9.1
6 Months	2.6	3 Years	14.2
9 Months	3.7	4 Years	17.5
12 Months	4.6	5 Years	21.4

Matters affecting the R.P.I during the last year

The major contributors to the March 2005 figure over the past **12 months** were Alcohol (0.3% out of 4.6%) Housing (2.8%), Fuel, Light and Power (0.8%), Motoring (0.4%), Leisure Services (0.3%) and Food Away from Home (0.4%).

The Housing group was again the largest contributor at 2.8% out of 4.6%. The cost of servicing the average mortgage debt has increased over this period. Although interest rates remained unchanged by the Bank of England in the last two quarters, they have risen from 4.0% in March 2004 to 4.75% in March 2005. Elsewhere within the Housing Group, there were increases in the cost of major house improvements, building costs and water rates.

The Fuel, Light and Power group contributed 0.8% which was mainly due to the effects of the increase in the price of oil, especially from September 2004. This has had the knock on effect of increasing the price of heating oil and gas. The increase in the motoring group was mainly due to the increase in petrol, again due to rising oil prices.

policy.research@gov.gg

Small decreases were observed in the Clothing, and Fares and Other Travel and Leisure Services Groups.

Matters affecting the R.P.I during the last three months

The main contributors to inflation over the last **three months** were: oil prices, the cost of alcohol for home consumption, fares and other travel, and increases in tobacco prices.

Annual % Changes for each quarter

Weight is the proportion of the total index represented by each group. **Contribution** shows the effect of price changes in relation to the relative weight of the groups.

Retail Prices Index (RPI)

The RPI is a measure of inflation in Guernsey. It can be defined as "an average measure of change in the prices of goods and services bought for the purpose of consumption by the vast majority of households" (RPI Technical Manual, Office for National Statistics, 1998).

Goods and services that consumers purchase have a price, and these will vary over time. The RPI is designed to measure such changes. Imagine a very large shopping basket (over 2100 items) comprising all the different kinds of goods and services bought by a typical household. As the prices of individual items in this basket vary, the total cost of the basket will vary - the RPI is a measure of the change from quarter to quarter in this total cost.

No two households spend their money in exactly the same way and this basket of goods is compiled using spending pattern data from the Household Expenditure Survey. This is carried out every five years, hence the RPI index base is reset to 100 e.g. Dec 1999 = 100, Mar 1994 = 100 etc. The RPI while not applying precisely to any one household or person, will be close to the experience of inflation for the great majority of households.

RPI comparison with Jersey and the UK

Guernsey and Jersey tend to run at a higher rate than the UK. The chart on page 3 (figure 3) shows that inflation in Guernsey followed the general trends of the UK inflation rate, albeit at a higher level. Guernsey and Jersey's inflation rates have been at similar levels over this period.

RPI X

A single measure of inflation may not meet all user's needs. Following the Office for National Statistics' Review of the Island's RPI, one recommendation was for the Policy and Research Unit to publish the RPI X. RPI X literally means RPI **eXcluding mortage interest payments**; the RPI is calculated again after this item has been removed.
