Assessment of Contribution liability

Your contributions will be based on the estimated profit figure you provided, until the actual Income Tax figure is available. When the actual figure is known it will replace your estimated amount, and either an account or a refund will be issued to you, depending on the difference between contributions paid on the estimated earnings, and what is due on the actual figures.

Your contributions for the second, third and fourth year that you are self-employed will be based on your earnings from the second year of business. By the fourth year your contributions are calculated on earnings from 2 years previous and your Contribution liability will continue on this basis, until the business ceases.

Example

Business starting in 2019

Contribution Year	Income Tax figures used
2020	2020
2021	2021
2022	2021
2023	2021
2024	2022
2025	2023

Income Tax payments

An estimated assessment will be issued to you including your estimate of business profit. Income Tax payments, based on the estimated assessment, will be payable in two halves. The first payment will be due by 30th June (or within 30 days if the assessment is issued after 30th June) and the second by 31st December. If you are also continuing in employment and if your business income is less than your personal allowances, you can opt for it to be included in your coding notice.
