

**THE STATES OF DELIBERATION**  
**of the**  
**ISLAND OF GUERNSEY**

**20<sup>th</sup> May, 2020**

**Proposition No. P.2020/47**

**COMMITTEE FOR THE ENVIRONMENT & INFRASTRUCTURE**

**STATES OF GUERNSEY ENERGY POLICY 2020-2050**

**AMENDMENT**

Proposed by: Deputy B L Brehaut

Seconded by: Deputy P T R Ferbrache

To delete proposition 10 (b) and substitute therefor:

"(b) The States' Trading Supervisory Board's Future Ports Development Programme, due to report to the States of Deliberation by December 2020, which will be informed by the Energy Policy and, in particular, will take into account the delivery of hydrocarbons by ship as part of any investigation of future harbour requirements; and"

**Rule 4(3) Information**

No additional resources are required to carry this proposition into effect

**Explanatory note**

This is a technical amendment, designed to clarify the intention of the proposition as it relates to the States' Trading Supervisory Board (STSB) and its role in operating various services and businesses within agreed policy frameworks.

The STSB is currently undertaking a programme of work to determine future harbour requirements through the Future Ports Development Programme and the Energy Policy is an input to that programme, helping to inform its direction. As part of that programme of work, consideration is being given to ensuring suitable arrangements are in place to continue to be able to accept ships delivering hydrocarbons and to allow them to discharge in Guernsey's port facilities.
