

## Additional Frequently Asked Questions

Question	Response
<p>Staff have been approached about baby sitting out of hours, is this allowed in phase 4? The staff may be a child's key worker so will be providing physical care for them at the nursery.</p>	<p>If they have been providing care during the day this should not be a problem but it should only be the one child or those from the nursery bubble that they are already providing care for during the day if there is more than one. If it is a child they are not providing care for at the nursery they should not really be babysitting for them in phase 4, if they did they should not be providing any personal cares such as bathing etc.</p>
