Summary of Changes¹ from Previous Versions

Version no/Date	Change	Comment	Section/ Page
V3.11 (Aug 20)	Annual review/refresh	Minor changes to reflect current dates. Change of nomenclature from “Education Services” to “the Committee <i>for</i> Education, Sport & Culture”. Changed references from “his/her” to “their”.	General General
	Change in Partner School arrangements, with effect from September 2021, for children attending Vauvert Primary School	Vauvert Primary School will be partnered with the Les Varendes site, rather than with the La Mare de Carteret site.	2.1 (p6)
	Revision to narrative in respect of Sark children	Inclusion of measures to facilitate the servicing of the agreement with Chief Pleas	7.5 (p15)
V3.10 (Aug 19)	Change of emphasis to reflect allocation model from 2019 will be through Partner School model.	Introduction of all ability model means catchment area allocation now only applies in limited circumstances.	1.3 (p5) 2.1 / 2.2 (p6-7) 3.1 (p8) 4.1.4 (p11)
	Removal of reference to special circumstances for children who attended St Andrew’s Primary School.	There are no longer any circumstances in which this would apply.	2.2.1 (p6)
	<i>(Table started August 2019)</i>		

¹ Material changes only. Minor changes (such as to punctuation, grammar, etc.) will not be listed

1.0 Introduction

1.1 Policy Statement

This policy explains the admissions process and sets out how to apply for a secondary school place.

This document forms the Committee *for* Education, Sport & Culture policy with regards to admissions into mainstream secondary schools during the academic year 1st September 2020 to 31st August 2021 and the allocation process for the placement of children into Year 7 at the start of the academic year commencing 1st September 2021.

1.2 Policy Objectives

The policy is intended to provide the following guidance for parents and carers:

- What parents, carers and children can expect from that process
- What criteria are likely to be applied when making various decisions
- The various processes that are undertaken

1.3 Policy Application

For the academic year commencing 1st September 2021 the Committee *for* Education, Sport & Culture will operate a Partner School allocation model for admission to States' Secondary Schools. The previous catchment-based allocation model will remain in place for children in Years 10-11 for that academic year. Admission to Special Schools is determined through the [Formal Assessment Process](#)².

The Partner School model operates such that in principle, children from groups of primary schools will be placed at their Primary School's Partner Secondary School Site, even if they no longer live within the catchment area of the primary school that they currently attend.

There may be times and circumstances when the Committee *for* Education, Sport & Culture has to vary its policy or chooses, where appropriate, to deviate from that policy. Changes in policy within the academic year are rare and you will always be informed as soon as possible of any change(s) that will affect your child.

The latest version of the published policy will be available on the [States of Guernsey website](#)³.

The application of this policy is delegated to officers within Education Resources and Estates Management.

² <https://www.gov.gg/formalassessment>

³ <https://www.gov.gg/schooladmissions>

1.4 Accountabilities

Parents/carers must ensure that they advise **their child's school** of any changes in relevant information, such as contact details and medical conditions. They should also advise **Education Resources and Estates Management** if their child no longer requires an allocated place at a secondary school.

The **Administration and Procurement Manager** is responsible for allocating and notifying parents/carers of placements.

The **Head of Education Resources and Estates Management** is accountable for the application of this policy.

2.0 Policy Provision

2.1 The Partner School Model

From September 2019, the Committee *for* Education, Sport & Culture has applied a Partner School model such that it will seek to allocate places at each of the four Secondary School Sites to children attending associated groups of primary schools. The Partner School model will continue to be in place for children starting Year 7 in September 2021. However, following the decision by the States of Deliberation in March 2020 to direct the Committee *for* Education, Sport & Culture to review the future structure of secondary education in Guernsey, the Partner School arrangements have been reviewed and revised in order to take into account the extended period of time that the current arrangements will need to be maintained and the need to optimise the alignment of capacity to demand levels (the previous arrangements also considered the transition arrangements to the two-college model). Whereas Vauvert Primary School was partnered with La Mare de Carteret High School for the Year 7 intakes for September 2019 and 2020, for the September 2021 Year 7 intake that school will partner with the Les Varendes School Site.

Site/School Groups for Children Starting Year 7 in September 2021

Secondary School Site	Partner Primary Schools
Les Varendes	Amherst Notre Dame du Rosaire Vauvert
Les Beaucamps	Castel St. Martin's Forest
La Mare de Carteret	La Houquette La Mare de Carteret
St. Sampson's	Hautes Capelles St. Mary & St. Michael Vale

Under the Partner School model, children will usually transition to the Secondary School Site of their Partner Primary School.

Should a child already resident in Guernsey, but not currently attending a States' Primary School, require a place at a Secondary School Site in Year 7 in September 2021, they will, subject to the availability of space, be allocated a place at the Secondary School Site partnered with the Primary School in whose catchment area the child lives.

2.2 Catchment Areas Model

Prior to September 2019, each mainstream secondary school, except the Grammar School and Sixth Form Centre, had a defined catchment area. These will only be applied to children joining school in Years 9-11 during the academic year commencing 1st September 2020. For admission purposes during this period, children are deemed to live at the same address as the parent or carer with whom they have lived the majority of their time in the year preceding their admission to the school, unless the parent or carer informs the Committee *for* Education, Sport & Culture otherwise and it is agreed that there is a good reason for another address to be used. Catchment area maps are available online for [Secondary](#)⁴ schools. The catchment-based admission model will only be applied to children joining school in Years 10-11 during the academic year commencing 1st September 2021.

2.3 Class Sizes

The default nominal form size in Secondary Schools is 24 children for intake capacity calculation purposes. However, in line with current practice this may be increased to up to 26 children at the discretion of the Director of Education following consultation with the relevant Headteacher.

2.4 Allocation of Places

Children cannot be guaranteed a place at their particular catchment school or partner Secondary School Site. In the event that it is not possible to accommodate a child in their catchment school or Secondary School Site, the Committee *for* Education, Sport & Culture will allocate a place at an alternative school/site based on all relevant factors known to it at that time, including the availability of places, distance between home and catchment school/Secondary School Site and alternative schools/sites, ease of access by public transport and the proximity of school bus routes. In such cases parental preference will also be considered but may not always be able to be accommodated.

Within the various allocation processes, children resident within the Bailiwick of Guernsey at that point will be given priority over children moving to the Island.

⁴ <http://maps.digimap.gg/gsySchoolCatchmentHigh.htm>

2.5 Automatic Release of Places

If the Committee *for* Education, Sport & Culture is advised by any of the grant-maintained colleges that the parents/carers of a child have accepted a fee-paid place, the Committee *for* Education, Sport & Culture will assume that the child no longer requires a place within a States' school and will therefore release it for reallocation to another child. If, for some reason, a parent or carer feels that this is an inappropriate assumption for their child, they should advise the Committee *for* Education, Sport & Culture by 5pm on Friday, 8th January 2021.

The Committee for Education, Sport & Culture reserves the right to move a child to another school if their current placement was based on incorrect information provided by their parents/carers.

3.0 Admission to a Secondary School Site

3.1 Allocation of Places at Secondary School Sites

In the event of there being insufficient places at a Secondary School Site at the point of transition from Primary to Secondary education under the "Partner School" model, places will be allocated according to the order of priority listed below.

Where there is insufficient capacity to be able to allocate places to all children within categories (c), (e) and (g), priority will initially be given to children whose siblings are in the lowest year group at the relevant Secondary School Site. As a second-level prioritisation mechanism for categories (c), (e) and (g) and as the main mechanism for all other categories, priority will usually be based on the distance between home and Secondary School Site/alternative Secondary School Site, ease of access by public transport and the proximity of school bus routes.

- a. Children who were on the roll of one of the Partner Primary Schools at the end of Year 5 and remain on the roll of that school in Year 6.
- b. ES-OCAPS⁵ category A placements
- c. Children not attending a Partner Primary School, who have on the roll of the secondary school a brother or sister who will continue to attend that school for the following year and who were allocated a place at that school, instead of their catchment primary school or secondary school, at the instigation of the Committee *for* Education, Sport & Culture or the former Education Department (ES-OCAPS/ES-OCAS/ED-OCAS)
- d. ES-OCAPS category B placements

⁵ OCAPS: Out of Catchment Area/Partner Site. Section 4 details the two types – PC-OCAPS (Parent/Carer request) and ES-OCAPS (Education-Specified). See section 4.2 for an explanation of ES-OCAPS category A, B and C placements.

- e. Children who were on the roll of one of the Partner Primary Schools at the end of Year 5, who have on the roll of the Secondary School Site a brother or sister who will continue to attend that school for the following year (excluding Years 12 and 13 at the Les Varendes site)
- f. Children on the roll of one of the Partner Primary Schools who have joined Year 6 during the academic year 2020-2021.
- g. Children not on the roll of one of the Primary Partner Schools, who have on the roll of the Secondary School Site a brother or sister who will continue to attend that school for the following year and were allocated a place at that school as a result of a Parent/Carer request (PC-OCAPS)
- h. ES-OCAPS category C placements
- i. PC-OCAPS placements

The above categories will be applied following the deadline for receipt of any PC-OCAPS requests, this being 5pm on Friday 8th January 2021 if parents/carers wish these to be considered within the main Secondary Admissions process.

3.2 Allocation Date

A nominal “allocation date” will be determined, depending on Year 6 primary school populations, PC-OCAPS requests, planned Secondary School Site capacities and other relevant factors. All information/requests known on that date will be considered within the allocation process, with all requests received before 5pm on Friday 8th January 2021 being given priority within the above category list.

Placement requests received after 5pm on Friday 8th January 2021 but before the allocation date will be assessed within categories a to i as outlined above, with priority within each category being based on the order of receipt; the earliest ones being given the highest priority and the latest ones the lowest.

Placement requests received after the “allocation date” will be processed on a “first come, first served” basis.

4.0 Out of Catchment Area/Partner Site (OCAPS) - Admissions

4.1 Requested by Parent/Carer (PC-OCAPS)

4.1.1 Making a PC-OCAPS request

It is recognised that in certain situations parents/carers may have valid reason for requesting their child attends a school other than (a) the Secondary School Site partnered with the child’s current Primary School or, where applicable, (b) the one in the catchment

area in which the parent or carer resides. Such requests may be made for any of the Secondary School Sites, including Les Varendes. However, PC-OCAPS requests on the basis of siblings attending the Les Varendes site will usually only be considered where the sibling is, or will be, within Years 7-11 at the time the younger child moves to that site (i.e. **not those in Years 12 and 13 attending the Sixth Form Centre**).

Please also refer to the document “The circumstances in which a Parent/Carer request for an Out of Catchment Area/Partner Site (PC-OCAPS) placement may be agreed” (available on the [States of Guernsey website](#)⁶).

If parents/carers wish to request a placement in a school either (a) other than the Secondary School Site partnered with their child’s current Primary School or (b) outside their catchment area, they will need to demonstrate why it would be unreasonably detrimental to the child’s education to attend the allocated school. These are referred to as PC-OCAPS (Parent/Carer Out of Catchment Area/Partner Site) requests. All requests should be made in writing or by e-mail to the Administration and Procurement Manager (contact details below).

- **For children in Year 6 moving into the secondary phase in September 2021, the request should be received by 5pm on Friday 8th January 2021** if parents/carers wish this to be considered as part of the main Secondary Admissions process. Requests may also be made after this date but may be considered outside of the main Secondary Admissions process and it is less likely that the Committee for Education, Sport & Culture will be able to grant them as places may already have been allocated to others
- All other requests may be made at any time

It is expected that parents/carers will be notified by the end of the spring term (1st April 2021) of the outcome of the Administration and Procurement Manager’s consideration of the PC-OCAPS requests received by the above deadline.

4.1.2 When PC-OCAPS requests may be granted

PC-OCAPS requests will only be granted where:

- There is space available within the planned intake capacity for that particular school
- The Administration and Procurement Manager is satisfied that the child should not attend the catchment/partner school site on the basis that attending the allocated school would be unreasonably detrimental to the child’s education

⁶ <https://gov.gg/schooladmissions>

Further information is available on the [States of Guernsey website](https://www.gov.gg/schooladmissions)⁷

4.1.3 Circumstances in which PC-OCAPS requests are not normally granted

Child-minding arrangements, convenience for parents'/carers' place of work and distance from school are not normally considered to be sufficient justification for granting PC-OCAPS requests. However, there may be instances when demand for places at a particular school is higher than the number of places available, in which case such circumstances may be able to be considered on the basis of facilitating the effective and efficient use of resources.

4.2 Education-Specified (ES-OCAPS) (when a child is allocated an alternative placement at a school other than their catchment school)

There are a number of scenarios within which the Committee *for* Education, Sport & Culture may allocate a child a place at a school other than their catchment/partner site. These are categorised as:

- A. Formal assessment of Special Educational Needs necessitating attendance at a specific school
- B. A child "at risk"⁸ or in the care of the States ("Looked After Child")
- C. Where there is under- or over-subscription (i.e. too few children for a class group to be viable or economic or too many children for a catchment/partner school's planned intake capacity) or other exceptional circumstances

These are referred to as ES-OCAPS placements. Children who transfer between schools under the Managed Move process are not deemed to be ES-OCAPS placements.

4.3 Relative priority of ES-OCAPS placements and PC-OCAPS requests

ES-OCAPS placements generally take priority over PC-OCAPS requests in respect of allocation of available school places. Category A and B ES-OCAPS placements may, where necessary, be given priority over all other children, even where this means that it might not be possible to accommodate a child living within catchment.

4.4 ES-OCAPS placements and siblings

Once a child has been deemed an ES-OCAPS placement, siblings subsequently attending the same school while an ES-OCAPS child remains on the school roll will also inherit the same ES-OCAPS status. Previous placements by the Committee *for* Education, Sport & Culture (ES-OCAPS/OCAS) or the Education Department (ED-OCAS) have the same status as ES-OCAPS placements.

⁷ <https://www.gov.gg/schooladmissions>

⁸ As defined within section 23 of the Children (Guernsey & Alderney) Law 2008.

4.5 ES-OCAPS placements and transfer to secondary school

At the end of the primary phase, children who have been placed at a Primary School under ES-OCAPS categories B or C may, where space is available, choose to attend either the Secondary School Site partnered with their current Primary School, or the Secondary School Site partnered with the Primary School in whose catchment they live. In the latter case, a PC-OCAPS request should be submitted, which will be granted subject to the availability of space.

4.6 Appeals against an ES-OCAPS placement

Parents/carers have the right to make representations against an ES-OCAPS placement. The grounds on which these may be considered are detailed within the document “The circumstances in which an Education-Specified Out of Catchment Area/Partner Site (ES-OCAPS) placement may be contested” which is available on the [States of Guernsey website](#)⁹.

5.0 Appeals

5.1 The Right of Appeal

There is a defined process for parents/carers to appeal against the placement of their child at a school. Further details of this can be found within the document “School Admission Appeals” on the [States of Guernsey website](#)¹⁰. This would not apply to ES-OCAPS category A placements (where there is already a specific Appeal process).

5.2 Time Period for Appeal

Appeals must be made within four weeks of the date of the letter confirming the child’s placement.

6.0 Moving Schools – Changes of Address

6.1 Children Currently in Year 6

If a child currently within Year 6 changes address after being formally notified by the Committee *for* Education, Sport & Culture of their Secondary School Site placement, the child may attend the school as notified on their formal confirmation letter or submit a PC-OCAPS request to the Committee *for* Education, Sport & Culture for a place at the Secondary School Site partnered with the Primary School for their new address.

⁹ <https://gov.gg/schooladmissions>

¹⁰ <https://gov.gg/schooladmissions>

6.2 Children Currently in Years 7-8 (Partner School Model)

When a child's home address changes and subsequently the Primary School catchment area to which they move differs to that of their previous address, parents/carers have three options available to them:

1. Submit a request for the child to continue attending the school at which they are currently registered or
2. Submit a request for the child to transfer into the Secondary School Site which is partnered with the Primary School in whose catchment area they now live, based on the new address or
3. Submit no request, in which case the Committee *for* Education, Sport & Culture will, in its absolute discretion, consider the most appropriate placement of the child

Parents/carers are asked to note that changing schools part-way through curriculum key stages can present difficulties in respect of curriculum continuity.

6.3 Children Currently in Years 9-11 (Catchment Areas Model)

When a child's home address changes and subsequently the Secondary School catchment area to which they moves differs to that of their previous address, parents/carers have three options available to them:

1. Submit a request for the child to continue attending the school at which they are currently registered or
2. Submit a request for the child to transfer into their catchment secondary school, based on the new address or
3. Submit no request, in which case the Committee *for* Education, Sport & Culture will, in its absolute discretion, consider the most appropriate placement of the child

Parents/carers are asked to note that changing schools part-way through curriculum key stages can present difficulties in respect of curriculum continuity.

6.4 Requests for Transfers/Continued Attendance

All transfer requests, or requests for continued attendance where a child's address has changed, should be sent to the Administration and Procurement Manager (contact details below) in writing or by e-mail and should be accompanied by documentary proof of the child's new address. This is likely to be either a utility bill, signed tenancy agreement, a court document confirming proof of ownership of a property, or a Residence Order.

7.0 Moving to Guernsey

Parents/carers moving to Guernsey should refer to the [States of Guernsey website](https://www.gov.gg/movingtoguernsey)¹¹ and contact the Committee for Education, Sport & Culture for guidance on, and assistance with, the placement of their child(ren). Where applications are received for the placement of more children than there are places available in a particular school, priority will be determined by the date of receipt of fully completed applications (with all appropriate supporting documentation), with the earliest-received application being given priority.

7.1 Years 7-8

Children moving to Guernsey to join a secondary school in Year 7 or Year 8 will be placed at the Secondary School Site partnered with the Primary School whose catchment they will be living in.

7.2 Year 9

Parents/carers of secondary-age children who will join no later than the last half term in Year 9 may request their child to be considered for placement at the Grammar School and Sixth Form Centre. The child may be asked to sit one or more tests to confirm that their ability level is such that they are likely to be best placed at that school. If an appropriate level of score is achieved, or it is not possible/appropriate for these tests to be sat, an educational professional will review the child's achievement levels and latest report supplied by the child's current/most recent school and advise whether a place can be offered.

7.3 End of Year 9 upwards

Children moving to Guernsey who will join either in Year 9 after May half term or in Years 10 or 11 will be allocated a place at the most appropriate school based on their current school's curriculum and their chosen examination subject options; this being determined by an appropriate Education Officer.

7.4 If a Catchment/Partner School Place is Unavailable

Should it not be possible to allocate a place at a child's catchment/partner school the principles outlined in section 2.4 above will be applied.

7.5 Sark School Pupils

There is an agreement in place for a number of Sark pupils to transfer to Guernsey for part of their secondary education. Children who transfer to Guernsey under the agreement with Sark's Chief Pleas will usually be placed at Les Beaucamps High School. Where necessary, places may be allocated/reserved in advance of them joining the school.

¹¹ <https://www.gov.gg/movingtoguernsey>

7.6 Alternative Placement Options due to Primary/Secondary Catchment Area/Partner Site Mis-matches

In the case of children moving to Guernsey whose sibling(s) may, due to the combined application of the Catchment Area and Partner School models, be likely to be placed at different Secondary School Sites, parents/carers may request that the older sibling(s) be placed at the Secondary School Site relevant to the Primary School attended by the younger sibling(s). Such requests should be made to the Committee *for* Education, Sport & Culture in writing or by e-mail and are subject to the availability of space.

7.7 Special Educational Needs

Where children have, or may have, identified special educational needs, the Committee *for* Education, Sport & Culture will consider any previous assessments undertaken or statements to inform placement decisions or recommendations for placement in a special school in Guernsey.

7.8 Out of Year Group Requests

Children are not usually placed out of year group for their age unless the Committee *for* Education, Sport & Culture believes that it would be detrimental to the child's education not to do so. Please refer to the Committee's Out Of Year Group Policy on the [States of Guernsey website](#)¹².

8.0 Leaving Guernsey or Leaving the States' Sector

If it is known that a child will be leaving school before they reach the age of 16, parents/carers should advise the child's school in writing of this as soon as possible. This enables improved planning for their place to be reallocated to another child.

If the Committee *for* Education, Sport & Culture is advised by any of the grant-maintained colleges that the parents/carers of a child have accepted a fee-paid place, the Committee *for* Education, Sport & Culture will assume that the child no longer requires a place within a States' school and will therefore release it for reallocation to another child. If, for some reason, a parent or carer feels that this is an inappropriate assumption for their child, they should advise the Committee *for* Education, Sport & Culture by 5pm on Friday, 8th January 2021.
