

**THE STATES OF DELIBERATION**  
**of the**  
**ISLAND OF GUERNSEY**

**17<sup>th</sup> March, 2021**

**Proposition No. P.2021/21**

**Policy & Resources Committee**

**Government Work Plan – stage 1**

**AMENDMENT**

Proposed by: Deputy G St Pier

Seconded by: Deputy V Oliver

In Proposition 1:

- a) To delete “three”
- b) To delete “and”
- c) To insert after the last semi-colon “
  - Investing in the island’s infrastructure”
- d) To make consequential changes to the references to “three priorities” in propositions 4, 5 and 6

**Rule 4(3) Information**

There would be no financial implications in the inclusion of investment in the island’s infrastructure in the list of government priorities. In due course, there may be capital funding requirements in respect of individual programmes or projects, but these will be subject to the normal decision making process of Committees and the States of Deliberation in accordance with the extant rules and procedures in respect of capital spending.

**Explanatory note**

Figure 3.2 on page 14 of the policy letter illustrates that the ‘Funding and Investment Plan – including Capital Portfolio’ is already a component of the Government Work Plan. This amendment simply reflects this by ensuring that it is one of the main priorities of government at this time in Proposition 1.
