

Fair Processing Notice

The information provided in your application is being collected in order to allow you to apply for an import licence for a medicinal cannabis product. The Data Controller for this information is the Committee for Health and Social Care (HSC) and they can be contacted at customercarehsc@gov.gg. Alternatively, you can contact the relevant data protection officer at Data.Protection@gov.gg.

Data collection is lawful in accordance with Schedule 2 condition 8 of the Data Protection (Bailiwick of Guernsey) Law, 2017 as the processing is necessary for the data controller to undertake a task that is required under an enactment, specifically the Import (Control) (Guernsey) Order, 2010. A copy of the import licence once issued will be provided to the Customs and Excise division of Guernsey Border Agency in order to facilitate the importation of the product subject to the licence. Information regarding the licence will be held by HSC and Guernsey Border Agency for twelve months.

The possession of cannabis products in the absence of an import licence is illegal and it is therefore necessary that basic information about individuals holding a licence is shared with Guernsey Police and enforcement teams from the Guernsey Border Agency, for a law enforcement purpose, and in accordance with Schedule 2 condition 13A of the Data Protection (Bailiwick of Guernsey) Law, 2017. This will allow Police and Customs officers to readily identify you as a licence holder, recognise that your possession and use of a cannabis product is lawful, and thereby prevent the usual law enforcement action being undertaken. Your name, address and details of your licence including the commodities and amounts will be provided to a small team within Bailiwick Law Enforcement and access will be tightly controlled. Your data will be held by Guernsey Police and the enforcement teams from the Guernsey Border Agency for twelve months.

All data processing will take place in accordance with the Data Protection Law. As a data subject, the Law provides you with certain rights and more information about these can be found at <https://gov.gg/article/dp>.
