What is JuiceNet?

We've injected eMotorWerk's JuiceNet technology into the EO Mini Pro and Smart Home to give EV drivers more insight and control when plugging in. Key features include:

Smartphone Control

Specify when you need your car fully charged by, start time of charge, maximum charge rate, and more.

Monitoring and Reporting

Track and adjust power consumption from your fingertips.

Notifications

Set up to 10 automatic notifications e.g. current charge or charging complete.

Money Saving

Benefit from off-peak or EV tariffs by scheduling charging when energy is cheapest.

Voice Control

Smart home integration with Amazon Echo/Alexa.

To enquire about a quote or arrange an installation, please contact Plug-N-Go on +44 (0) 203 6579672 or email info@plug-n-go.com.
