Date of response: 14 October 2021

Access to Public Information request regarding vaccine status of hospital patients

Request:

Can you advise how many of the current 8 hospitalised cases are vaccinated or partially vaccinated please.

Response provided by the Committee *for* Health & Social Care:

On the 10th September there were 8 patients with COVID-19 in Bailiwick hospitals. All 8 patients were fully vaccinated. 4 of these patients had COVID symptoms, but 4 were asymptomatic, and it should be noted that while these patients were positive COVID cases, some were requiring hospital care for reasons not related to COVID.
