Date of response: 11 August 2022

Access to Public Information request regarding an operational policy document

Request:

In addition to my request for information under the Freedom of Information Code for the 2021 PSU Annual Report, I make an additional request for a copies of the CfHSC policy documents that cover the charging of private patient patients, whether they be insured of self-funding, when seeking medical treatment in the Bailiwick, and specifically the policy that explains and details how the 25% uplift is taken for private patients.

Response provided by The Committee *for* Health & Social Care:

Private pricing has been discussed at previous health Committees and as such there are papers that confirm charges are made for the delivery of service provision. The policy is not set out in an operational policy document and Officers have therefore been requested by the Committee to review the requirement to set out the private pricing policy in this way.
